

METALLICA

washable paint for interior with a metallic effect

Description	Paint, composed of synthetic binders in aqueous emulsion, metallic effect fillers, additives, bactericides. specific weight pH thinner	1.21-1.25 8-9 water
Characteristics	water absorption washability environmental classification Metallica is available in three bases: Silver, Gold and Bronze and it can be used as is or colored. It can be applied as a full covering metallic paint or, suitably diluted, as a metallic glaze over an underlying colored paint	very low washable A
Safety	no requirement for specific labelling	
Storage	1 year in the original packaging if stored between +5°C and +40°C	
Supports	It can be applied internally on flat, clean, healthy and dry surfaces These supports must be smooth and must be previously treated with a coat of fine-grained Fixaquarz Do not apply on surfaces subject to rising damp	
Laying Rules	Laying and drying must be carried out between +5°C and +35°C, protected from bad weather or excessive sun. Do not apply materials from different batches on the same wall	
Laying	To obtain a covering finish: - if you want a wavy surface, apply Metallica with small strokes of the brush, leaving a lot of material; when the paint begins to dry, smooth it slightly with a plastic spatula - if you want a smooth and united surface, apply the paint with a short-haired roller in two passes To obtain a semi-opaque finish: - dilute Metallica at least 1:1 with water and apply with a brush or sponge Wash tools with water after use.	
Yeld	as a paint as a glazing	7-8 m ² /lt 15-20 m ² /lt
